

Antitrust and Competition Litigation

Claims in multiple jurisdictions. Class actions. Treble damages. Injunctions. The stakes in competition litigation are sky high and claims are increasingly common.

We have global reach with antitrust and competition litigators in key jurisdictions — the United Kingdom, the Netherlands, Germany, and the United States. The team brings real expertise and a coordinated approach to local and international cases.

We advise on claims arising from all forms of antitrust and competition law infringements, including cartels and abuse of dominance. We act in class actions, claims for injunctions and interim relief, and triple damages.

If your company may become involved in a competition dispute, contact the team that will work to optimise the outcome. Hogan Lovells.

Representative experience

Large corporate group in English and Dutch Courts defending several multi-party antitrust damages claims arising from cartel in the gas insulated switchgear market.

Two airlines in antitrust damages claims brought in relation to a cartel in the air cargo market in the UK, the Netherlands, Germany, and the U.S.
