

Cyber Regulatory Compliance

With a particular focus on HIPAA, ITAR, PCI, NNPI, and others, we develop policies, procedures, and technical cybersecurity requirements needed to comply with regulations; review existing policies, procedures, and capabilities; and recommend mitigations necessary to comply with regulations.

Representative experience

For a risk assessment, we interviewed the CISO, CIO, COO, and other key stakeholders at a major ISP, then recommended a governance framework and approach in line with industry standards and legal frameworks.
