

Engineering, Procurement, Construction, and Supply Chain

If you build it, they will come. But new structures and approaches are bringing new risks and opportunities.

Our engineering, procurement, and construction team advises on projects in diverse sectors ranging from mining to residential property — in jurisdictions across the globe.

We act for developers, contractors, consultants, and supply chain participants on the private sector side. We understand the nuances of the different procurement techniques currently used in the market. And we will guide you through the process of tendering to agreement of contract terms.

Representative experience

The EPC contractor on the construction of the onshore facilities of the US\$34bn INPEX Ichthys LNG terminal.

Rio Tinto on EPCM and a suite of construction contracts for the Oyu Tolgoi project in Mongolia.

A Mexican project company on EPC and O&M agreements for the development and construction of a solar power plant in El Carrizo, Choluteca, Honduras.

Rio Tinto on the Simandou projects in Guinea, including bankability and deal structuring issues and on the multiple EPC contracts, EPCM arrangements, and other
