

Infrastructure Funds

As infrastructure development continues to seek private investment, our highly ranked infrastructure acquisition and financing group, together with our market leading infrastructure funds practice, are able to support your fund through its life cycle.

You'll be working with a team that has a history of innovation on infrastructure fund projects. We have established some of the first funds in the UK market to invest in social infrastructure and other PFI/PPP assets. And we acted on four out of the five PPP infrastructure funds to be listed on the London Stock Exchange's Main Market for listed securities.

Representative experience

We advised Lloyds Banking Group on the launches of its UK, global, and European infrastructure funds.

We advised InfraRed Capital Partners on the launch of its 35-year income-focused infrastructure fund, which was fully seeded/invested at launch with a £500m portfolio.

We advised Aberdeen Asset Management on the launch of its first UK and global infrastructure funds.
