

Insurance and Reinsurance Arrangements and Finance

New developments have led to a demand for innovative financing structures for the insurance and reinsurance industry.

New developments have led to a demand for innovative financing structures for the insurance and reinsurance industry. Our market-savvy team advises on a wide range of arrangements, including various forms of alternative risk transfer. Our integrated approach provides you with a one-stop shop, with a particular focus on ensuring transactions are designed to improve your regulatory capital position.

We have been involved in some of the most innovative transactions in the sector. Clients are increasingly turning to our team to help improve transaction documentation — from traditional insurance and reinsurance contracts to complex, structured transactions, including derivatives. We have helped the investment arms of insurance clients on a variety of structured investment products.

Representative experience

Acted for Prudential, Phoenix, AEGON, Pacific Life Re, Munich Re, RGA, and several pensions schemes on secured and unsecured pension derisking insurance and reinsurance contracts.
