

Christina T. Bassick

Associate

Washington, D.C.

Biography

Christina Bassick provides business-oriented legal and policy solutions to transportation and environmental organizations.

Christina helps clients navigate legal questions related to the National Highway Traffic Safety Administration, Environmental Protection Agency, Department of Transportation, California Air Resources Board, Federal Motor Carrier Safety Administration, Federal Railroad Administration, and Pipeline and Hazardous Materials Safety Administration. She assists clients with responses to enforcement actions and information requests, compliance with new and existing safety and environmental laws, and reviews of applicable federal, state, and local requirements.

Christina counsels clients on compliance with Federal Motor Vehicle Safety Standards, the Clean Air Act, the Clean Water Act, safety recalls and investigations, the Resource Conservation and Recovery Act, and the Corporate Average Fuel Economy Standards. Christina also assists clients in navigating the evolving regulatory landscape surrounding autonomous vehicles and electric vehicles.

Christina graduated from University of Virginia School of Law in 2019. While there, she served as an executive editor for the Virginia Journal of International Law. She also served on the Student Bar Association and as vice president to the J.B. Moore Society of International Law.
