

Charles Ford

Counsel
London

Biography

Described in *Legal 500* as 'superb at complex contracts', Charles Ford, advises governments, funders and developers addressing the infrastructure needs of the future.

Charles works on the development of PPP and regulatory based infrastructure models as well as acquisitions and disposals of infrastructure investments. In addition, Charles works on fund establishment and co-investments and alliancing in the sector.

Particular areas of recent focus for Charles have been mega transport projects as well as renewable energy projects, water and economically regulated infrastructure models.

Representative experience

Managing the team advising the Department for Transport on the £2.7bn East Coast and the £2.4bn Great Western rolling stock projects.

Advising the consortium led by Infracapital Partners and Morgan Stanley on the £1.2bn acquisition of Affinity Water.

Advising Aéroports de Paris on its \$923m investment in TAV Airports and TAV Construction with airport holdings across the globe.
