

Nicola Fulford

Partner
London

Biography

Nicola Fulford advises clients on the full range of Privacy and Cybersecurity issues from international data transfers and privacy policies to online profiling, marketing consents, impact assessments and compliance strategies. She provides pragmatic, solutions-focused advice, with a good understanding of technology.

Knowing data protection challenges can arise at any time, she guides clients through the regulatory and reputational challenges. Nicola is a trusted advisor to companies, whether responding to breaches, dealing with regulators, negotiating agreements or considering the optimal way to balance data protection risk and business and customer expectation.

Nicola is a member of the LexisNexis Information Law consulting editorial board. She regularly speaks and is published on information law issues and has written sections of key text books.

Nicola has particular understanding of the demands of putting compliant projects into operational practice, having worked in-house for an investment bank and an IT services company and been seconded as Privacy Counsel to a leading Internet company.

Representative experience
