

Mobility and Transportation

Our global sector group reflects the realities of converging transportation modalities in a hyperconnected mobility future. You don't operate in silos – neither do we. Grounded by experience in the following industry sectors: Aerospace & Defense, Automotive and Transport & Logistics.

We go beyond monitoring and anticipating emerging trends. We analyze their legal impact to help you confidently adapt to changes that are already here and changes yet to come. Are *you* ready for the future?

Top trends to watch:

- Combining all Modes of Transport
- Consumers Accepting Robots
- Consumers Requesting Content
- Current vs Future Business Investments
- Enhanced Connectivity, Telematics and Infotainment (5G)
- Health, Privacy and Cybersecurity Concerns
- Impact of Trade Control on Production and Technology
- Interior Design Transformation
- Mass Transit Transformation
- Micromobility
- More Virtual Testing
- Return of Ownership

Industry Focus

Hydrogen

- Shared Platform Technologies
- Smart Cities
- Sustainable Transport and Living Mobility

Innovative mobility revolves not only around the path to a fully automated future, but also connectivity, electrification, and trends towards shared services across all modes of transport. Whatever the pace, we understand industry disruption presents challenges and possibilities. We embrace the opportunities disruption creates.

Your goal is to transform industry vision into consumer reality – moving goods or people, by land, air, or waterways. Our goal is to facilitate your innovative process and help you achieve a competitive advantage while minimizing risk. With an eye towards global resilience, we are equipped to help you navigate industry hurdles and capitalize on disruptive opportunities today, tomorrow and in the years ahead.
