

## Dr. Kyra Lueg Althoff, M. Sc.

Patent Attorney

Dusseldorf

### Biography

Kyra Lueg-Althoff is a patent attorney at our global patent litigation practice. She advises clients in all technical aspects of patent law with a focus on patent infringement and validity proceedings.

Kyra combines comprehensive scientific knowledge and deep understanding of complex technical issues with legal expertise in intellectual property law. She supports national and international clients in litigation proceedings and provides her technical expertise to the legal attorneys at our firm in all business areas.

Kyra studied chemistry and specialized in organic chemistry in her master's degree. She wrote her master's thesis in the field of biosupramolecular chemistry at the Chair of Organic Chemistry at the University of Duisburg-Essen. She also worked on technical setups for laser ablation as part of her advanced thesis at the Chair of Technical Chemistry at the University of Duisburg-Essen. Subsequently, she completed her doctorate at the Chair of Organic Chemistry at the University of Duisburg-Essen in the field of biosupramolecular chemistry on tailor-made polymers for the recognition of protein surfaces.

In the course of her training as a patent attorney, Kyra successfully completed her studies in "Law for Patent Attorneys" at the Germany's State Distance-Learning University of Hagen as well as the preliminary examination for the European Qualifying Examination.

Prior to joining Hogan Lovells, Kyra worked as a patent
