What countries and topics does it cover?

[Click here to see a full breakdown of topics and countries covered.](#)

Our guide is a comprehensive view from across our global firm. It covers 22 countries and has a selection of EU and international content.

The 17 topic areas include government support and government restrictions, trade restrictions, tax reliefs, employment, privacy and data protection, insolvency, the impacts on M&A and corporate, supply chains, and litigation as well as infrastructure and energy projects, financial institutions, insurance, real estate, antitrust, and intellectual property.

What is the benefit of our guide?

The scale of this pandemic means it impacts each company in a different way, depending on the size and scope of your operations, the complexity of supply chain and employee networks, and the markets in which you operate. With government responses differing around the world, and almost daily changes in each country, keeping abreast of the issues relevant to your business is a mammoth task.

To help you stay informed of the ongoing changes to law, our global guide is an easy-to-use, customizable, resource. You can review all content for a chosen country and compare topics country by country.
