

30 January 2020

Digitalization. Complex supply chains. Growing regulation and compliance. Conglomerates and industrials operate in an increasingly dynamic environment – one which requires creative solutions and forward thinking. In this podcast series we bring you those forward thinking insights. Tune in to hear global perspectives on the legal and commercial implications of emerging technologies that are transforming how conglomerates and industrials do business today, tomorrow, and in the future.

In this episode, Jacky Scanlan-Dyas and Ray Dunn, talk about how industrial revolution 4.0 impacts businesses today and lay the foundation for upcoming episodes.
