The United States has vast mineral resources, the development and use of which are fundamental to the U.S. economy. Denver Energy and Natural Resources lawyers Scot Anderson, Paul Hilton, Andrew Lillie, Elizabeth Titus, Jessica Black Livingston, Julia La Manna, and Aaron O'Connell share their insights on key considerations surrounding mining laws in the *Encyclopedia of Mineral and Energy Policy*. The team covers a range of critical topics impacting the sector, including Mineral Use and Import/Export for the United States, Classification of Mineral Reserves, Mineral Policy, and Regulatory Frameworks.
