

Dr. Robert Baustel

Senior Business Lawyer
Munich

Biography

Robert Baustel focuses on litigation and product liability law. He supports in the defence of internationally leading clients against civil claims in the medical devices industry. Robert concentrates on life sciences product liability litigation and claims.

Robert has extensive expertise in legal project management and independently manages complex database construction and database handling for global litigation cases. His MBA in General Management and his former experience provide him with a solid background to assist in the development of litigation strategies. He understands the challenges clients face on a daily basis.

Representative experience

Global defense of global certification company against liability claims resulting from allegedly inappropriate certification of breast implant manufacturer P.I.P.

Defending an international manufacturer of medical devices against product liability claims.
