

Julia Sáenz

Junior Associate
Madrid

Biography

Julia is a junior associate in the IP/TMT and Data Protection department of Hogan Lovells in the Madrid office.

Julia's professional practice focuses on advising on data protection in multi-jurisdictional projects, audiovisual law, telecommunications and privacy on the Internet. She is also involved in advising entities in sanctioning proceedings before the Spanish Data Protection Agency (AEPD) and the National Court. In addition, she advises non-profit entities on data protection matters.

Some of the clients that Julia advises are entities in the audiovisual, pharmaceutical and health sectors, information society services and electronic communications services providers.

Representative experience

Assistance in the implementation of the new Digital Services Act for a major e-commerce platform.

Assistance to a major international company in the pharmaceutical and cosmetics industry in a multi-jurisdictional project on data protection and e-commerce.

Continuous and daily advice to national and international companies from various sectors on compliance with data protection and e-commerce obligations.
