

Samantha Campbell

Partner

Singapore

Biography

Samantha has 20 years' experience acting for lenders, sponsors and public sector entities in seamlessly structuring, negotiating and executing major investments and projects in emerging markets across Asia- Pacific, Russia and the CIS.

Based in London for the first 10 years of her career, Samantha has been resident in South-East Asia for 10 years. She has a passion for development projects and is known for delivering practical advice and completing complex transactions against a backdrop of often vague or developing regulations in challenging jurisdictions, many of which involve multilateral agencies and development financiers or export credit agencies. Her industry experience covers power, oil and gas, mining, water, aerospace, expressways and other transport. She is also very active in the financial institutions sector.

Although Samantha's work is regional, she has an oversight role in relation to our practice in Vietnam and the Mekong region.

Representative experience

Senior finance parties, including ADB and GuarantCo., on a US\$160m satellite financing to provide affordable, high-speed broadband internet connections to countries in Asia and the Pacific Islands.

JBIC, NEXI, and international commercial lenders in connection to the US\$2.6bn financing of the 1.32GW Van Phong 1 coal-fired thermal power plant project in
